- Charge placard during the daylight and it vision assists at night
- 5in X 7in (12.5cm X 17.8cm) to fit into BDU pocket
- Hole in corner for 550 cord or similar

LINE ITEM	EXPLANATION
1. Location of Pickup Site	Encrypt grid coordinates. When using DRYAD Numeral Cipher, the same SET line will be used to encrypt grid zone letters and coordinates. To preclude misunderstanding, a statement is made that grid zone letters are included in the message (unless SOP specifies its use at all times).
2. Radio Frequency, Call Sign, Suffix	Encrypt the frequency of the radio at the pickup site, not a relay frequency. The call sign (and suffix if used) of person to be contacted at the pickup site may be transmitted in the clear.
3. No. of Patients by Precedence	Report only applicable info & encrypt brevity codes. A = Urgent, B = Urgent-Surg, C = Priority, D = Routine, E = Convenience. If 2 or more categories reported in same request, insert the word "break" (Max. each category.)
4. Spec. Equipment	Encrypt applicable brevity codes. A = None, B = Hoist, C = Extraction equipment, D = Ventilator.
5. No. of Patients by Type	Report only applicable information and encrypt brevity code. If requesting MEDDEVAC for both types, insert the word "break" between the litter entry and ambulatory entry: L = # of Lit - (litter), A = # of Pat - Ambul (sitting).
6. Security Pickup Site (Wartime)	N = No enemy troops in area, P = Possibly enemy troops in area (approach with caution), E = Enemy troops in area (approach with caution), X = Enemy troops in area (armed escort required).
6. Number and type of Wound, Injury, Illness (Peacetime)	Specific information regarding patient wounds by type (gunshot or shrapnel). Report serious bleeding, along with patient blood type, if known.
7. Method of Marking Pickup Site	Encrypt the brevity codes: A = Panels, B = Pyrotechnic signal, C = Smoke Signal, D = None, E = Other.
8. Patient Nationality and Status	Number of patients in each category need not be transmitted. Encrypt only applicable brevity codes. A = US military, B = US civilian, C = Non-US mil, D = Non-US civilian, E = Other.
9. NBC Contamination (Wartime)	Include this line only when applicable. Encrypt the applicable brevity codes. N = nuclear, B = biological, C = chemical.
9. Terrain Description (Peacetime)	Include details of terrain features in and around proposed landing site. If possible, describe the relationship of site to a prominent terrain feature (lake, mountain, tower).

Infrared Tools LLC is a veteran owned small business having extensive experience with military infrared signage and marking systems. We look forward to serving you.
